PQ Controller Bracket Installation Guide
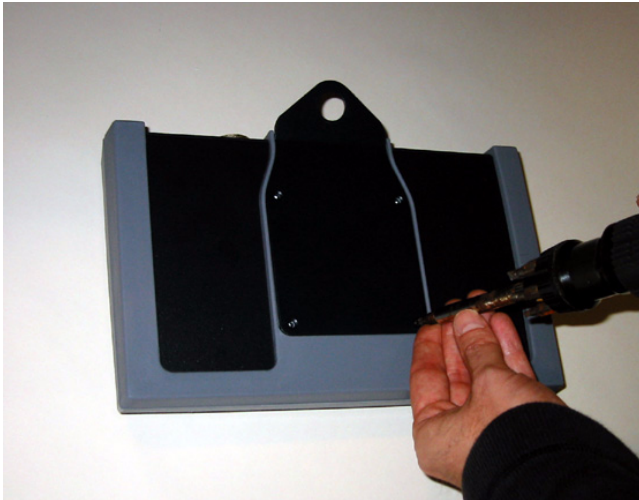

For VENUE Systems

Mounting a PQ Controller to a Microphone Stand

A PQ Controller can be mounted on microphone stand using the PQ Controller brackets.

To mount a PQ Controller on a microphone stand:

1 Attach the large mounting bracket to the bottom panel of the PQ Controller with 4 of the provided machine screws. Do not fully tighten the screws.

Attaching the large mounting bracket to the bottom of a PQ Controller

1 Attach the small mounting bracket to the back panel of the PQ Controller with 2 of the provided machine screws. Do not fully tighten the screws.

Attaching the small mounting bracket to the back of a PQ Controller

2 Line up the holes in the two brackets and tighten the screws on each bracket.

3 Affix the PQ Controller mounting bracket to any standard microphone mount, and secure it with a nut or with a microphone boom (shown below).
